

Training Tires Announcement

Important Notice on Training Tires

We inform all drivers, trainers and team leaders that, starting from Round 3 of SKUSA Mexico, all new training tires will have to be purchased directly from the host track management. Otherwise, they will not be able to enter the track with new training tires. These tires will be marked and scanned properly for track control.

For any questions and/or clarifications, please call 56 3392 6581.

This measure will only apply to new training tires.

Sincerely,

SKUSA Mexico Championship.
